PROFILE

About Me

As a highly motivated programmer with **1.5 years** of hands-on experience in full-stack development with **Java**, **Spring Boot**, and **Linux**, I have developed a strong foundation in these technologies.

I have worked on several projects involving the entire software development life-cycle, including design, implementation, testing, and deployment.

I am skilled in developing scalable and robust applications using Spring Boot and have experience working with Linux environments. I am dedicated to continuously learning and improving my skills, and am excited to bring my expertise to new challenges and projects.

PROJECTS

AuraDOCS.

This is a document management system. I could be able to add multiple features and migrate this project into a new version. I am the one mainly assigned to this project to manage all the development, and deployments to the servers and production servers of the clients as well.

Employee management system.

The employee management application is a full-stack web application that allows a user to perform CRUD operations on a database of employee records, using a dynamic and interactive front-end built with React and a robust and scalable back-end built with Spring Boot.

WORKING EXPERIENCE

Auradot (pvt) LTD - Associate Software Engineer

 2022 (July) - Present  Colombo 007

I am the lead developer of their very own product a-raDOCS. While this period, I did code reviews, refactored the old code bases, Deployed the product on the client's servers, set up the backups and automate the repetitive tasks. Familiar with status-tracking frameworks like Jira.

Auradot (pvt) LTD - Trainee Software Engineer

 2021 (Sept) - 2022 (June)  Colombo 007

Mainly, I learned product versioning and got practical exposure to agile methodologies and release management and hands-on experience in deploying the product on the server. Also got an understanding of the Apache Solr search engine. Because internally the product uses this search engine.

Auradot (pvt) LTD - Intern Software Engineer

 2021 (March - September)  Baudhaloka Mawatha, 007

Mainly work with the spring MVC framework with the JSP and MySQL. Awareness of how to detect the root cause of bugs using debugging tools. Involved with the configurations in the development server.
